PROCEEDINGS

DEFENDANT'S MOTION TO DISMISS THIRD AMENDED COMPLAINT

ORDER AFTER HEARING

Hearing Held. The Court heard oral argument from the partes. The Court's tentative ruling is to grant
the motion to dismiss. The complaint fails to state facts that show any wrongdoing by any specific
defendant and fails to allege that plaintiff is current on his loan obligation. The Court to issue a final
ruling to the parties. The Court vacated the CMC that was set for today. The matter is deemed
submitted.
